

## Collection Spotlight: Oversize

Need a creative study break or inspiration for a project? Wander through the oversize books section on B2, where you'll find books on everything from haute couture to photography, from architecture to travel. No matter your interest or project, you're sure to find something amazing!

## Textbooks Revisited

Boatwright Library does not typically purchase textbooks, nor do we request textbooks through interlibrary loan. If you do not see your textbook listed in the library catalog, you will most likely need to purchase it.

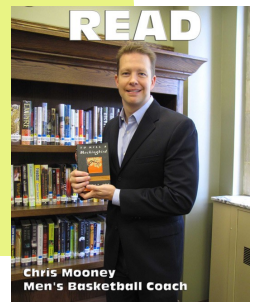

## Library Tip: Don't Reshelve!

After browsing books in the library, please leave them on a designated cart or shelf. Don't put them back where you got them! We want to keep tabs on what's being used, and will make sure they get put back in the right place.

## Celebrity READ Posters

As you walk through the library, keep an eye out for our new READ posters featuring such campus favorites as WebstUR, Coach Chris Mooney, President Ed Ayers, and many more!
