

Where is your laptop?

If left unattended, it's possible that it might not be there when you get back. Please keep a close eye on your electronics, textbooks, wallets, and other valuables when working in the library. This is a public space, and you are responsible for keeping your possessions safe!

Schedule a Research Appointment

Now it is easier than ever to set up a research appointment with a subject librarian! On any subject or course research guide, look for the "schedule appointment" button below the librarian's picture. Simply click the button to select an open time slot from that librarian's calendar.

Library Tip: Log off!

When using a library desktop, don't forget to RESTART the computer before you leave. If you don't log off, others will have access to your Netfiles AND your print credits. Epic fail!

Upcoming Events: Peple Lecture

Michael F. Suarez, S.J. will speak on "Old Books, Digital Books, and the Future of Libraries" at this year's Peple Lecture, scheduled for Sunday February 26, 2012 at 2 PM at the Jepson Alumni Center.
